WHAT OUR CLIENTS SAY

www.equipco.com.au

What Our Clients Say

Integrity, Training, Compliance, Partnership

“ As usual. You guys have delivered as promised ”

We have been very happy with our purchases.

We Thank You and the Team for their continued great Customer Service. A culture at EquipCo that never wavers.

Much appreciated, great to deal with.

Thank you for the follow up/s.

“ We are more than happy with your company, quality of goods, staff and delivery ”

We are more than happy with your company, quality of goods, staff and delivery.”

“thanks, the equipment is operating perfectly and we are very happy with the purchase and your professional advice prior to ordering.”

“everything is fine with the products we’ve ordered since opening.”

“ I wanted to give you some statistical feedback on the savings our business has made since we investe ”

I wanted to give you some statistical feedback on the savings our business has made since we invested in the Equipco Bulk Fuel System.

Previously our purchasing strength was limited to a maximum of 9000lts at any one order. Since the installment of your 30,000lts system, our purchasing strength has increased to 39,000lts.

This has given our business an increased buying power that has translated to an average saving of 9 cents per litre when ordering fuel. In four months of operating this has fed back savings in excess of \$7000.00 from fuel purchases to our business.

By my calculations the investment will have paid for itself within 5 years of operating.

As a relatively small transport company it was a big investment, but it has been worthwhile as you can see. The continued technical support that you have given throughout this time has also been a great reassurance.

Brands we work with

• Sydney • Brisbane • Melbourne • Perth • Adelaide • Hobart • Darwin

We offer Australian Standard Compliance,
Innovation, and Practical Engineered Packages
of the Highest Quality and Workmanship.

EQUIPCO SECTORS

We build relationships based on
