

# AIR OPERATED OIL PUMPS

Extensive range of oil transfer pumps for drums, bulk tanks, IBC pods. 2:1 ratio pump for volume dispensing with short discharge hoses. 4:1 ratio pump for medium weight oils through hose reels and metered nozzles. 6:1 ratio pump for heavy gear and diff oils at long distances.

## FAICOM QUALITY PUMPS - EUROPEAN MADE

### ED41MP

- 4:1 ratio stub pump.
- Suitable for transferring light and medium viscosity oils at medium distances such as through hose reels and metered nozzles.
- 21 LPM when tested with SAE20 oil at 7 bar.
- Air pressure 4-8 bar.
- Air consumption 200-250 LPM.
- Designed for wall mounting or installation in bulk tanks.
- European made.

### ED61MP

- 6:1 ratio stub pump.
- Suitable for dispensing gear and heavy viscosity oils and long distance transfer.
- Designed for wall mounting or installation in bulk tanks.
- 15 LPM when tested with SAE20 oil at 7 bar.
- Air pressure 4-8 bar.
- Air consumption 200-250 LPM.
- European made.

### ED4194P

- ED41MP pump with suction tube to suit 205lt drum.
- Note: suction pipe can be custom made to suit specialised applications.

### ED6194P

- ED61MP pump with suction tube to suit 205lt drum.
- Note: Suction pipe can be custom made to suit specialised applications.

### DP2100P

- 2:1 ratio stub pump.
- The DP2100P pneumatic pump is suitable for low viscosity oils, diesel fuel, Adblue, antifreeze, and water based fluids. High flow performance makes it suitable for transferring high volume of fluid at low and medium distance. European made.
- 50 LPM when tested with SAE20 oil at 7 bar.
- Air pressure 4-8 bar.
- Air consumption 200-250 LPM.
- Designed for wall mounting or bulk tanks and IBC pods.

### DP2194P

- DP2100P pump with suction tube to suit 205lt drum.

W1302-STK212: Wall mount kit with suction hose and drum spear.

## MECLUBE QUALITY PUMPS - EUROPEAN MADE

### ML11

- 1:1 ratio stub pump
- 40LPM
- For wall- fixing or custom applications
- With different accessories it allows alternative possibilities of application.
- Polyurethane seals.

### ML31

- 3:1 ratio stub pump
- 25LPM
- For wall- fixing or custom applications
- With different accessories it allows alternative possibilities of application
- Viton seals

### ML51

- 5:1 ratio double action air operated oil pump
- 28LPM
- For wall- fixing or custom applications
- With different accessories it allows alternative possibilities of application

## ORDERING INFORMATION

ED41MP	4:1 ratio stub pump.
ED4194P	4:1 pump with suction for 205lt drum.
ED61MP	6:1 ratio stub pump.
ED6194P	6:1 pump with suction for 205lt drum.
DP2100P	2:1 ratio stub pump.
DP2194P	2:1 pump with suction for 205lt drum.
ESPM12	Aluminium suction tube to suit ED41MP, ED61MP and DP2100P stub pumps for connection in bulk oil tanks 1-2mt in length.
OH12-2	2mt hose assy for oil ½" single wire.
OH12-3	3mt hose assy for oil ½" single wire.
OH12-4	4mt hose assy for oil ½" single wire.
OH12-6	6mt hose assy for oil ½" single wire.
OH12-10	10mt hose assy for oil ½" single wire.
W1302	Wall mount bracket for ED41MP and ED61MP pneumatic pumps.
SM542B	Wall mount bracket for DP2100P pneumatic pump.
STK212	Suction spear kit with hose for connecting wall mounted pumps to drums or bulk tanks.
ML11	1:1 ratio Meclube stub pump
ML1120	1:1 ratio stub pump to suit 200lt drum
ML31	3:1 ratio Meclube stub pump
ML3120	3:1 ratio stub pump to suit 200lt drum
ML51	5:1 ratio Meclube stub pump
ML5120	5:1 ratio stub pump to suit 200lt drum

Oil nozzles, metered, non-metered and preset, see page 110.
