

CONTAINER TANKS ET/CSB RANGE

Our new generation tank range is a premium fuel storage solution designed for installation in a variety of applications with minimum site preparation.

Constructed to AS1940, AS1692 and AS1657, the unique design enables visual inspection underneath tank, for servicing requirements whilst increasing tanks safe-fill capacities. Sloping tank floor for easy collection of contaminants or condensation build-up. Multiple pump suction ports for submersible turbine pump applications, adaptable side ladders service entry, superior reinforced construction, are just some of the features of our new outstanding ET range tanks.

Sizes available: 30,000, 67,000, 72,500, 82,000 and 88,000 Litres safe fill. These tanks will meet and exceed all your storage requirements for remote retail use, additional storage or tank farms.

ORDERING INFORMATION

CODE	CAPACITY(LITRES)	SAFE FILL(LITRES)	DIMENSION(MM)	PUMP COMPARTMENT DETAIL

MINE-GO® UTE TOP SELF BUNDED TANKS

200, 400 & 600 Litre "built tough" Mine-Go® range self bunded tanks meet the relentless demands of the mining industry. These tanks are packed with unique features to enable even mounting of hose reels on rear of compartment if required. Sizes to suit all utes-trays or tray trucks.

Fully compliant to Australian standards- AS1692-2006 and AS1940-2004.

The all new Mine-Go range of self bunded tanks are an industry first using the latest design features normally only found in our larger sizes.

The huge cavernous pump compartment allows fitting of high flow pumping equipment including filtration and metering with room to spare for tools and oil. All totally lockable with dual forklift pockets, this new range will truly turn heads when mounted on your Ute. Also available to colour match to your vehicle if required.

Features

- Certified approved lift lugs
- Compliance with Australian Standards- AS1692-2006, AS1940-2004
- Pump or genset feed
- Forklift pockets
- Petrol storage for onground use only
- Filtration & fuel metering options
