FUEL STORAGE TANKS

– WHERE SPACE IS AT A PREMIUM!

COMPACT – DURABLE – COMPLIANT – FEATURE PACKED

5000L, 7500L, 10,000L AND 15,000L SELF BUNDED DIESEL TANKS

DieselStor

- Designed for installation where space saving is critical with compact footprint design.
- Security is paramount in the Dieselstor design with all ports secured with padlockable tabs.
- Tank vent port has anti theft internal mesh fitted.
- Constructed entirely from plate steel with quality paint system for durable finish.
- Fitted with statutory placards for diesel storage to Australian Standards.
- Design includes a lockable walk-in pump compartment with spill bund containment 3" camlock fill point and grate floor.
- Ample room for optional dispensing equipment, hose reel or Fuel Management System.
- Includes fill pipe, 3" camlock and cap, fire safe ball valve and check valve with overfill valve for total peace of mind when filling.
- Rear access ladder with dip hatch access to check fuel levels, vents and bund integrity dip.
- Design incorporates dual hose masts with pump - flange pipe work options.
- Large pump access port for optional STP if required.
- Access hatch for tank inspection and cleaning is standard with internal fitted ladder.
- Service hatch for easy checking of gauge probes if fitted and over fill valve inspection or adjustment.
- Includes dual suction lines with foot valves to enable additional feed to generators if required.
- Designed to enable nozzle switch or Fuel Management Terminal options to be fitted to side plates in 3 easy to reach locations.
- Internal surge baffle to enable limited fuel stored to be transported. (maximum 20% of SFL capacity)
- Lift lugs for movement when empty only.
- Sturdy base construction for easy forklift pick up from sides.
- Australian standards AS1940 & AS1692 compliant
