

FILLRITE

IECEX APPROVED FLAMMABLE
METER FOR PETROL, DIESEL
AND JET-A1

EQUIPCO[®]

INNOVATIONS IN FUEL HANDLING

www.equipco.com.au

1800 813 182

Accurate within 1%, this turbine meter sets the standard for accuracy, ease of use and safety. It has factory presets for 20 fluids and UL/ATEX listing on the entire meter, not just the electronics as competing brands have. Replaceable AA batteries keep your meter running and downtime to a minimum. A rubber boot helps protect the meter and electronics from impact damage.

- Install it where you need it, even at the end of the hose.
- Measure gallons, litres, quarts, pints, and ounces with one meter.
- A priority on safety with intrinsically safe electronics and near global regulatory approvals provide peace-of-mind.

TT10EX

- 1" BSP Fillrite IECEX approved flammable turbine meter - made in USA .
- UL listed made from Aluminium with digital display.
- 8 - 132 LPM flow rate
- For use as a inline meter at end of nozzles.
- Suitable for use with Petrol, Diesel, Jet-A1 and Kerosene.
