

ELECTRIC PUMPS

12 VOLT 60 LPM DIESEL TRANSFER PUMP KITS

FOR DIESEL USE

Complete Range of 12 Volt 60 LPM Diesel Transfer Pump Kits

Our standard mid-flow model in our 12-volt pump range, the Equipco BP60 has been a staple offering of ours for years, well known and trusted by many of our customers. This is our standard mid flow model, offering 63LPM free flow before anything is fitted to the discharge. From our own tests, when fitted with a 4mt hose and nozzle, you'll be expecting a flow of approximately 55 to 60 LPM. Manufactured in Europe, the sturdy cast iron pump body has a 25mm/1" BSP female port on the inlet and outlet with arrows in the casting to help identify the direction of flow.

ITEM CODE	DESCRIPTION	FLOW RATE	ELECTRICAL	PRIMING TYPE	CONNECTIONS	DUTY CYCLE	WEIGHT
BP60	High flow 12V - 63LPM diesel pump	60 LPM	12 Volt, 31 AMP, 240 watt	Self priming rotary vane pump	1" BSP Female ports	30 minutes	4.3kg
