The starting model in our 12 volt pump range, the Equipco BT46 has been a staple offering of ours for years, well known and trusted by many of our customers. This is our standard offering in our low flow models, offering 42LPM free flow before anything is fitted to the discharge. From our own tests, when fitted with a hose and nozzle, you'll be expecting a flow of approximately 35 to 40 LPM.
