Pump Bay

Bunded pump bay on the front of the tank c/w drain point, valves, optional hose mast provision to each side.

Ladder & Platform

ET Range tanks permanent ladder. Ladder includes bridging stair tread. CT24 has fix ladder to one side only for access to dip hatch.

✓ Signage

Hazchem signage for combustible liquids/Petrol

Warranty

24 Month manufacturing warranty.

## TIME PROVEN DESIGN FOR COMPACT FUEL STORAGE IN ANY APPLICATION

## AVAILABLE IN DIESEL, PETROL, AVIATION FUEL, WASTE OIL

The ET Series is a premium self bunded (double wall )fuel storage solution designed for harsh operating environments with minimal site preparation. Pressed corners and a reinforced top means a robust tank for your fuel storage needs.

All steel construction - designed for the most demanding applications in mining, heavy contracting, service station, rental and agriculture. Recessed corners allow under tank visibility for ease of periodical

inspection maintenance without the need of lifting the tank and decreased chance of corrosion due to underside clearance of tank from ground level. Constructed to Australian Standards AS1692-2006, AS1940-2017 and AS1657.

Suitable for static/onground storage only of diesel fuel, lubricant oils and models up to 55,000 litres are available to suit Petrol and other flammables.

Description

85,000 Ltr ET range container tank.
