

FASTFILL TRANSMISSION NOZZLE

MADE IN USA

FASTFILL TRANSMISSION NOZZLE BULK HEAD FITTING COUPLER

- Higher flow rate
- Bulkhead fitting
- All metal construction
- Available in all steel
- Max operating pressure of 500 psi
- Connects only to the ER400R

Code	Burst Pressure	Flow Area	Max Operating Pressure	Nozzle Thread	Receiver Thread	Latching Mechanism
EN400R	1500 PSI	2285 SQ IN	500 PSI	3/4 FNPT	OD 1-5/16" 12 TPI ID 1-1/16" 12 TPI	Ball Bearing

Code	Description	Flomax
EN400R	The EN400R is a Fastfill Transmission Nozzle bulk head fitting coupler that has higher flow rates than the standard. This dry break nozzle is made up of only metal components and is available in all steel. The EN400R has a max operating pressure of 500 psi and has a 3/4" female NPT base. The EN400R only connects to a ER400R	R-TN
