| EP50H7    | Equipco Petrol 2 Inch High Flow Diesel Transfer Pump 7HP - 600 LPM Max | Durable aluminum design for reduced weight and corrosion resistance. | Compact roll cage for ease of handling and transport. | Reliable performance for large-volume fluid transfer applications. | 600 lpm   | 30 metres | Petrol |

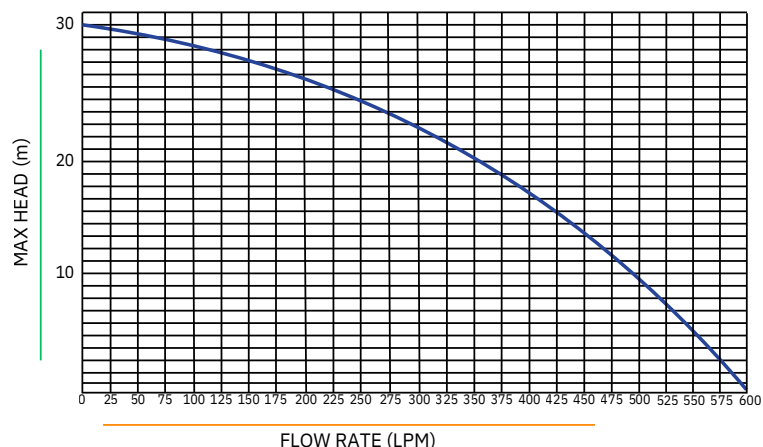

### ENGINE DETAILS

| ENGINE BRAND | ENGINE TYPE   | HORSEPOWER | STARTING SYSTEM | FUEL TYPE       |
|--------------|---------------|------------|-----------------|-----------------|
| Equipco      | Petrol engine | 7 hp       | Recoil start    | Unleaded petrol |

### PUMP DETAILS

| PUMP MATERIAL | PUMP TYPE        | INLET/OUTLET SIZE | FREE FLOW RATE | MAXIMUM HEAD |
|---------------|------------------|-------------------|----------------|--------------|
| Aluminium     | Centrifugal pump | 50mm (2")         | Up to 600 LPM  | 30 metres    |

### PUMP PERFORMANCE CURVE

### ADDITIONAL TECHNICAL DETAILS

| EP50H7 (170F Petrol) | ENGINE TYPE:<br>(Air-cooled; 4-stroke; OHV; single cylinder) |
|----------------------|--------------------------------------------------------------|
| Pump Lift            | 28 metres                                                    |
| Suction Height       | 8 metres                                                     |
| Bore x Stroke        | 70mm x 54 mm                                                 |
| Displacement         | 210 CC                                                       |
| Engine Speed         | 3600                                                         |
| Max. Power Output    | (7.0HP) 5.1 kw                                               |
| Ignition System      | Transistor magneto                                           |
| Engine Oil Capacity  | 0.6 litres                                                   |
| Fuel Capacity        | 3.6 litres                                                   |

### \*\*\*\* OPTIONS AVAILABLE

|           |                                                                                                                                                                            |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| EP50H703  | Kit complete with 6 Mtr hose, A120L 1" auto nozzle and swivel. 100- 130 LPM max.                                                                                           |
| EP50H706  | Kit complete with 6mtr hose, 1" auto nozzle and swivel and 10 micron filter. Diesel use only. 100- 130 LPM max.                                                            |
| EP50H7012 | Kit complete with 10 micron filter, R190L 1 1/2" 4 digit mechanical meter, 6mtr x 32mm rubber hose, swivel and 1" auto shut off nozzle. Diesel use only. 100- 130 LPM max. |
