

BATTERY PUMPS

FUELINE 12V 40 LPM
BATTERY PUMP

DIESEL USE ONLY

Low-to-Medium Volume Refuelling Operations

Fueline12V battery pump provides solution for low to medium volume refuelling operations. Made to suit a broad range of applications including agriculture, earthmoving, stationary or mobile tanks, trucks or utes.

ITEM CODE	DESCRIPTION	FLOW RATE	DUTY CYCLE	INLET/OUTLET	ELECTRICAL
FL4012	Fueline 12V 40 LPM battery pump	40 LPM	30 minutes	3/4" BSP	180W / 15A / 4300RPM

FEATURES & APPLICATIONS

APPLICATIONS

TRUCKS

EARTHMOVING

AGRICULTURAL

MOBILE TANKS

UTES

SELF PRIMING VANE PUMP

provides efficient, reliable performance with low maintenance, ideal for demanding applications requiring durability and ease of use.

EQUIPPED WITH BY-PASS VALVE

ensures reliable pressure control and enhanced system protection, minimising wear and maintenance

12V DC OPERATION 4M BATTERY CABLE
WITH ALLIGATOR CLIPS

ensures reliable, portable performance ideal for remote or vehicle-powered applications.

BELOW 70DB NOISE LEVEL

delivers quiet, operator-friendly performance suitable for environments where low noise is essential.

OPTIONS AVAILABLE

FL4012MA	Fueline 12V battery kit with 4m hose, automatic nozzle and swivel.
FL4012SKA	Fueline 12 volt Pump Kit complete auto shut off nozzle and Swivel, nozzle holder, 4mt hose and suction 205lt drum. Diesel use only
