

HOSE HANGER FOR 2" (50mm) HOSE

Made in Canada

USED IN VARIOUS INDUSTRIAL AND COMMERCIAL SITES

HOSEBUN "A patented urethane hose saddle designed to properly suspend hose"

Hoses are expensive! Especially industrial hoses. When our new HOSEBUN product is used, the hose manufacturer's maximum bend radius is protected and your expensive hose is kept from kinking.

- The petrochemical industry
- Oil and gas drilling applications
- Hi-hose refuelling stations
- Overland/offshore shipping & transportation settings
- Military & aircraft refuelling depots

The HOSEBUN is by far, the most efficient, effective and safe method to suspend hose in a permanent, temporary or semi-rigid position, designed for your unique needs. Even wide body slings do not provide the protection your hose requires. The HOSEBUN is a one-time purchase, the cradle itself doesn't wear out!

Specifications	Material	Length	Shipping Weight	Shipping Dimensions	Sling Model	Sling Type	Sling Height	Sling Material	Rated Capacity	Maximum Temperature
HBH-50	Urethane	18" / 45.7 cm	2 kg	53 x 21 x 10 cm	Metal "D-Ring" Sling	RS 16D	16.5 cm	UV resistant tread polyester	612Kgs @ 5:1 WILL 437Kgs @ 7:1 will	93.3°C
