TOUCHLESS HAND SANITISER DISPENSER IN STAINLESS STEEL WITH INTERNAL 280 ML TANK

MHD280

Touchless hand sanitiser dispenser in stainless steel with internal 280 ml tank, it works with 4 AAA batteries (not included). Smart automatic dispenser with infrared sensor that allows the immediate and accurate dispensing without pushing buttons. It is suitable for hand sanitisation, avoiding contact with germs and bacteria. The tank has a large opening to help refilling it without spills. The column is in painted steel with shelf support for gloves and waste bin. The large triangular base gives it perfect stability. The dispenser is suitable for hand sanitisation of clients in commercial operations.

Switch / Volume control
