

OILFIELD FUEL TRANSFER FITTED HOSE KITS

● Internal strain relief springs

● Four finger grip bend restrictor

DIESEL, PETROL, KEROSENE, BIODIESEL B10 AND B20

CONTRACTOR-GRADE FUEL HOSE FOR DIESEL, PETROL AND BIODIESEL UP TO B20

Ideal for fitting as a replacement hose for hose reels or pumps for everyday contractor use. Suitable for a wide range of fuels and oils with a W.P of 100 PSI. Lengths from 4 metres to 20 metres.

- Designed for the serious contractor with antistatic properties
- Internal springs at each end prevent kinking and maintain hose integrity
- Suitable for a range of fuel types, including diesel, petrol, kerosene, and biodiesel
- Crimped ends ensure leak-free and reliable operations

● RMA Class A Oil-resistant

● Static Wire
