TAKE ADVANTAGE OF THE WHOLESALE FUEL REVOLUTION

Get The Benefit Of Fuel Straight To Your Yard

Compliance

All our Fuel Tank Packages are fully QA compliant, approved to the following Australian Standards

AS1940: 2017 The storage & handling of flammable & combustible liquids

AS1992-2006 Steel tanks for flammable and combustible liquids

AS1657-2013 Fixed platforms, walkways, stairways and ladders - Design, construction and installation

Annual Savings & Payback on Investment

Check your Fuel Savings Calculator www.equipco.com.au/dollar-saving-diesel-calculator to estimate the annual savings from getting fuel direct from the terminal and the payback period when purchasing the tank outright.

Pre-despatch Quality Check

All tank and pump packages installed are fully wet tested prior to dispatch to ensure 100% customer satisfaction.
