

POWER JET

Industrial Pressure Wash Compact Trolley Kit

The Bluwash Power Jet Industrial Pressure Wash Compact Trolley Kits offer a robust and reliable cleaning solution designed for continuous duty applications. Operating on 240 or 415 volts, depending upon the model chosen, it delivers consistent performance in demanding environments. Producing up to a powerful 2900 PSI (200 Bar) at a flow rate of up to 15 litres per minute, they ensure effective removal of dirt, grease, salts, food particles, cement, chemical residues, grime, and more. The units feature a compact trolley design for easy manoeuvrability and include a built-in 12-litre detergent /degreaser tank, enhancing efficiency and convenience for industrial cleaning tasks.

**1450 RPM MOTOR
PUMP SPEED FOR
INDUSTRIAL USE**

**UP TO 75 °C
INLET WATER
TEMPERATURE**

**AUTO- STOP
SWITCH**

**SHOCK
RESISTANCE**

- Brass pump with international patent
- High efficiency up to 98%
- Dual seals for high-temperature use
- Integrated by-pass valve
- Stainless steel plungers with ceramic coating
- Stainless steel valves
- Self-priming pump
- Dry-run safety for up to 5 hours
- 4 Pole speed electric motor 1450 rpm
- Pressure up to 200 bar with a single-phase motor
- Auto-stop switch
- Roto-mold chassis with built-in 12-litre detergent tank
- Adjustable detergent injector device
- Large pressure gauge with rubber protection
- Large wheels for easy transportation
- Easy front connection
- CE approved

**10
YEARS**

WARRANTY

ON PUMP HEAD

IF SERVICED AND MAINTAINED CORRECTLY

**24
MONTHS**

WARRANTY

ON COMPLETE UNIT

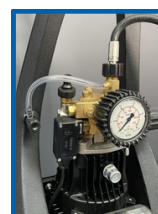

* excludes hoses, nozzles
and wearing parts.

When in operation for blast cleaning -
unit must be in horizontal position.

Rear of Unit with
hose and nozzle
stowage locators

BRASS PUMP DETAILS

Piston Pumps with Single and Three-Phase Motor for Professional Use

- Pump with international patent.
- Dry-run safety for up to 5 hours.
- 1450 rpm motor speed for industrial use.
- Brass pump with dual seals and coated ceramic piston for 98% efficiency in operation.
- Integrated by-pass valve.
- Stainless steel valves.
- Self-priming pump.
- Pressure up to 2900 PSI (200 bar) with a single-phase motor.

1450 RPM motor pump
speed for industrial use

Made in Italy

Up to 75 °C inlet water
temperature

APPLICATIONS

For cleaning of tractors and earthmoving equipment for the construction, agricultural sector, cleaning of machinery, removal of concrete, cement, gypsum and plaster residues, washing of motor vehicles, heavy vehicles, trucks, work equipment cleaning and sanitizing of machinery and steel tanks for food industry, graffiti removal from walls and panels, and removal residues from hulls of small boats and vessels at ship yards and marinas.
