

CUBE TANKS

500-LITRE SELF-BUNDED DIESEL CUBE TANK

BUILT TO AUSTRALIAN STANDARDS AS1940 AND AS1692

Secured with a lockable pump compartment, inspection hatch, and lift lugs for movement when empty only

Engineered for uncompromising safety and strict compliance with Australian Standards AS1940 and AS1692, our 500-litre self-bunded diesel cube tank is a robust, secure fuel storage solution for demanding worksites. This stackable unit features a lockable pump compartment, a convenient inspection hatch, and heavy-duty forklift pockets for safe relocation when full, alongside dedicated lift lugs for movement strictly when empty. Delivering superior secondary containment and operational efficiency, it provides a highly practical, space-saving design for industrial and agricultural applications across Australia.

| SD500C    | 500 litre self bunded cube tank for Diesel with lockable pump compartment with inspection hatch and lift lugs for movement when empty only. | 500 Litres SFL | Self-bunded | Diesel        |

FEATURES & ADVANTAGES

Stackable design with forklift pockets for moving when full.

COMPLIANT FUEL STORAGE

Engineered to meet stringent Australian Standards AS1940 and AS1692, this 500-litre self-bunded design ensures complete environmental protection and strict regulatory compliance for on-site diesel storage.

CONTROLLED FUEL DISPENSING

The integrated lockable pump compartment guarantees secure fuel dispensing and prevents unauthorised access, whilst the dedicated inspection hatch facilitates straightforward routine maintenance and operational checks.

EFFICIENT SITE MOBILITY

Designed for versatile relocation, the stackable configuration incorporates robust forklift pockets for safe handling when fully laden, alongside integrated lift lugs specifically rated for repositioning the unit when empty.

LIFT LUGS FOR MOVEMENT WHEN EMPTY ONLY

# SD TANKS

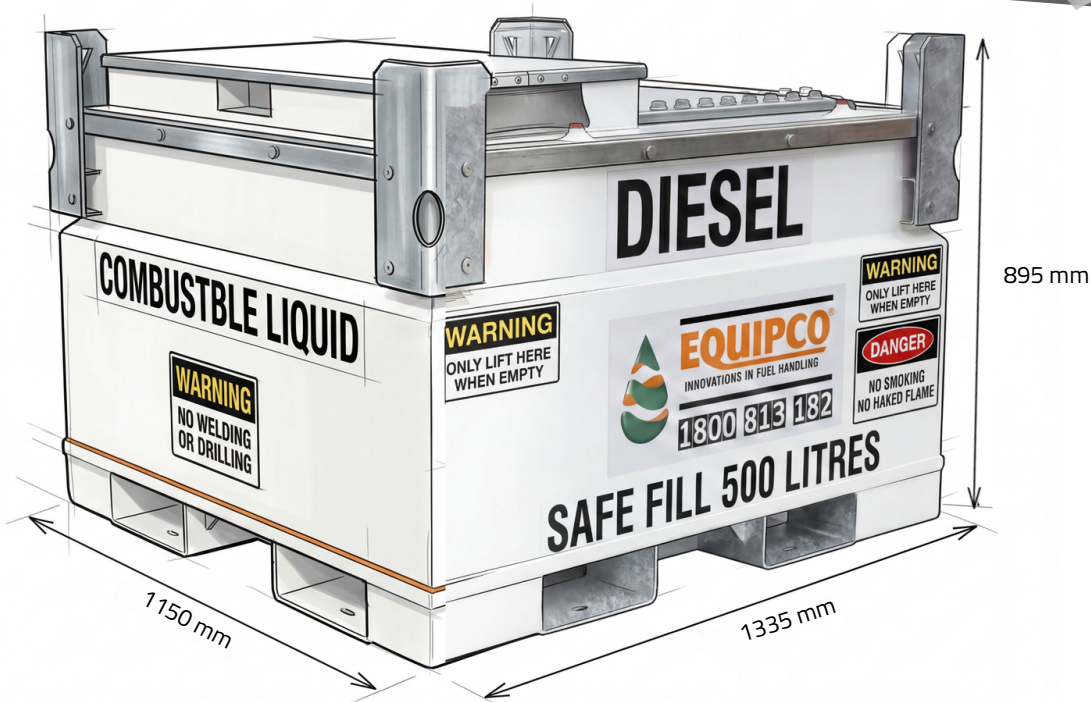

## SECURE BY DESIGN

The SD Tank range combines practical refuelling capability with enhanced equipment protection, making it an ideal solution for commercial, industrial and resource sector applications.

Featuring a fully enclosed and lockable pump bay, internal baffling for added strength and surge control, and configurations for diesel, petrol and waste oil storage, SD Tanks deliver dependable performance in demanding operating environments.

Available in 200, 500, 1,000 and 2,000 litre capacities, the range can be further specified with optional waste oil handling accessories, providing a versatile and secure storage solution built to Equipco's exacting standards.

*Mid-range fuel storage built with a self-contained lockable pump bay for operators who can't afford loose ends on site.*
