

# MANUAL FUEL NOZZLES

Smooth quality alloy construction

Efficient flow through design

Equipco manual fuel nozzles are manufactured from cast aluminium with heavy duty design features giving efficient operation.

While simple in design, these nozzles are fully serviceable, including interchangeable diesel and unleaded spouts.

Premium diesel manual fuel trigger nozzle

- Screw out curved diesel or unleaded petrol spout.
- Smooth quality alloy construction.
- 1" BSP female swivel hose connection.
- Service cap fixed by 4 screws.
- Hold open spring activated lever latch.
- Efficient flow through design.
- 26 PSI W.P.

**Code: SF200NL**

Code	Size	Description	Usage
SF200NL	1"	Premium diesel manual fuel trigger nozzle.	<b>D</b>
SF200NUL	1"	Premium unleaded petrol fuel trigger nozzle, manual operation.	<b>P</b>

	SF200NL/ SF200NUL
<b>BODY</b>	Cast aluminum
<b>SEALS</b>	Buna-N
<b>MAIN STEM</b>	Stainless steel
<b>SPOUT</b>	Aluminum
