FUEL FILTER INSTALLATION DIAGRAM

FEATURES

REMOVABLE HEAD

Cast Aluminium head with 25mm BSP threads for easy fitting in to pre existing systems

CLEAR BOWL

Isoplast see-through bowl (**Fuel resistant Polycarbonate**) allows fuel to be seen while travelling through, allowing you to easily identify just how dirty or clean your fuel is, while also allowing you to spot any water in your system

FILTER ELEMENT

Replaceable with NF20

DRAIN VALVE

Drain cock can be unscrewed to drain water from bowl if there is a problem with condensation in your tank.

**DIESEL**

**KEROSENE**

**PETROL**

**E10**

**BIODIESEL**
****Blends up to 20%
